

HIMANSHU KUMAR

Software Developer · Java | Spring Boot | Microservices | Cloud (AWS)

himanshukumarrai786@gmail.com | +91 63774 03312 | [Portfolio](#) | [LinkedIn](#) | Bengaluru, India

PROFESSIONAL SUMMARY

Software Developer with **2+ years of experience** building scalable, high-performance applications using **Java, Spring Boot, Microservices, and Angular**. Strong experience in designing and deploying cloud-native solutions on **AWS** with **Docker, Kubernetes, and CI/CD pipelines**. Skilled in **REST API design, system design, and performance optimization**, with hands-on experience improving application efficiency and reducing latency. Proven ability to deliver reliable solutions in **Agile environments** using modern development tools including **GitHub Copilot and AI-assisted workflows**.

TECHNICAL SKILLS

Programming Languages:

Java, TypeScript, Core Python

Frameworks & Libraries:

Spring Boot, Spring MVC, Spring Security (JWT/OAuth2), Spring Data JPA, Hibernate, Angular, Flutter, RESTful APIs

Architecture & Design:

Microservices, Event-Driven Architecture, SOLID Principles, Design Patterns (Factory, Singleton, Builder, Strategy), Low-Level Design (LLD)

Cloud & DevOps:

AWS, Docker, Kubernetes, CI/CD Pipelines, GitHub Actions, Helm Charts

Databases:

MySQL, PostgreSQL, MongoDB (NoSQL), Redis (Caching), SQL Query

Testing:

JUnit, Mockito, Unit Testing, Integration Testing, Postman (API Testing)

AI-Powered Development Tools:

GitHub Copilot (GH-300 Certified), Cursor AI, Agentic AI, Claude, ChatGPT

Tools & Technologies:

Git, IntelliJ IDEA, Visual Studio Code, Maven, Swagger / OpenAPI, Linux, Jira, Agile / Scrum

PROFESSIONAL EXPERIENCE

Specialist Programmer — Strategic Technology Group (STG)

July 2024 – Present

Infosys Limited | Bengaluru, India

- Built and maintained **scalable backend services** using **Java, Spring Boot, Angular, and microservices architecture**, improving delivery efficiency by **20%**.
- Designed and exposed **RESTful APIs** with **Spring Security (JWT/OAuth2)** for secure inter-service communication across distributed systems.
- Improved system performance by **30%** through code profiling, database query optimization, and implementing **caching strategies (Redis)**.
- Automated deployments using **CI/CD pipelines (GitHub Actions, Kubernetes, Helm)**, cutting release time by **80%**.
- Increased development speed by **35%** using AI-assisted tools such as **GitHub Copilot and Cursor AI**.
- Collaborated in **Agile/Scrum ceremonies** (sprint planning, code reviews, retrospectives), achieving a **95% on-time delivery rate**.

Software Developer Trainee

January 2024 – June 2024

Gemini Solutions Pvt. Ltd. | Gurgaon, India

- Developed **Gembook**, an internal social platform using Spring Boot and MySQL, increasing engagement by **50%**.
- Implemented **Hibernate/JPA** for ORM and optimized SQL queries, reducing API response latency by **35%**.
- Delivered **3 successful software releases** on schedule; applied **SOLID principles** and design patterns, reducing production bugs by **25%**.
- Performed structured code reviews and Git-based workflows, improving maintainability and reducing release cycles by **40%**.

KEY PROJECTS

DWX Platform — Data Analytics & Monitoring System

Infosys Limited

Technologies: Java, Spring Boot, Angular, MySQL, Redis, Docker, Kubernetes, Helm Charts, GitHub Actions, GitHub Copilot | **Role:** Full-Stack Software Developer

- Developed a unified analytics platform ingesting data from **5+ meeting platforms and 10+ device types**, improving data accessibility by **40%**.
- Designed microservices-based architecture deployed on Kubernetes, enabling **high scalability under increased traffic loads**.
- Built an **AI-powered monitoring module** with automated alerting, cutting issue resolution time by **30%** and improving SLA compliance.
- Exposed **secure REST APIs** with Swagger/OpenAPI documentation, enabling seamless third-party integrations and reducing onboarding time.
- Applied **AI-assisted coding (GitHub Copilot, Cursor AI)** to reduce boilerplate code by **40%** and accelerate feature delivery cycles.

Gembook — Internal Social Media Platform

Gemini Solutions

Technologies: Java, Spring Boot, Spring Security, MySQL, Hibernate/JPA, RESTful APIs | **Role:** Backend Software Developer

- Architected backend microservices for user posts, reactions, and notifications with **event-driven processing** to handle concurrent requests efficiently.
- Implemented **Spring Security** for role-based access control (RBAC) and JWT-based stateless authentication.
- Optimized critical database queries and applied **indexing strategies**, reducing algorithm complexity by **50%** and improving API response time.

Donate N Save — Healthcare Cross-Platform Mobile App

Personal Project

Technologies: Flutter, Firebase, MongoDB | **Role:** Team Lead

- Led end-to-end development of a real-time platelet donor matching application, reducing donor search time from days to hours — a **75% improvement**.
- Integrated **Firebase Authentication**, real-time Firestore database, and push notifications for instant donor–patient coordination.
- Managed full **SDLC** from requirements gathering to production deployment across Android & iOS.

CERTIFICATIONS & ACHIEVEMENTS

AWS Certified AI Practitioner (AIF-C01) — Udemy, 2026 | Cloud & AI

GitHub Copilot (GH-300) — GitHub, 2025 | AI-Assisted Development

Programming for Everybody (Python) — Coursera, 2021 | Grade: 96.60%

Solved **500+ DSA problems** on LeetCode, HackerRank & GeeksforGeeks

Designed scalable microservices and REST APIs following system design principles

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

November 2020 – June 2024

KIET Group of Institutions, Ghaziabad | Dr. A.P.J. Abdul Kalam Technical University (AKTU) | **GPA: 8.22 / 10.0**
